

Check the box if the characteristics for the given quadrilateral is true (all of the time).

characteristics	Parallelogram	Rectangle	Rhombus	Square	Trapezoid
Opposite sides parallel					
Opposite sides are congruent					
Opposite angles are congruent					
Consecutive angles are supplementary					
Diagonals are equal length					
Diagonals are perpendicular					
Diagonals bisect each other					
Diagonals bisect the angles at the vertices					
Equilateral					
Equiangular					
Regular					

Homework problems:

What must be given (minimum) to solve an entire rectangle?

What must be given (minimum) to solve an entire square?
